

Born Again

A WolfStone Ranch Musical Production

Mission and Messages

A Call to "Golden Rule" Activism

Believing, as we do, that we need a mighty grassroots response to the myriad existential crises that beset our beleaguered world today, our *Born Again* project is a clarion call to stop the sickness and to start the healing... before it's too late!

We believe that Mother Earth is desperately crying out for millions more courageous and extraordinary everyday people ("**!! Heroes !!**") ~ from across the political, cultural and religious spectra ~ to step up now and say enough is enough. It's high time we cleaned up all the gargantuan messes we humans have made... and we're eager to join forces with so many other Heroes, such as those who've already been struggling on the front lines for years, in a massive worldwide revolution to manifest a **FRESH START!**

Borrowing the beautiful term and concept "**born again**" from the evangelical Christian tradition*, and giving it a brand-spankin' new definition of **CULTURAL and ENVIRONMENTAL REBIRTH...** our *Born Again* mission is to lay the foundation for people of any and/or no religious affiliation to join forces to create healthy, highly effective, compassionate communities of all sorts... sharing an all-inclusive "**One World, One Tribe**" vision... with the gargantuan goals of stopping the annihilation of our precious Mother Earth... and of recreating a glorious "Heaven on Earth" in which ALL living beings can thrive in harmony!

Our compelling and captivating arena-rock-style *Born Again* concert has been designed to appeal to the better angels inside each of us to mutually break down the ugly walls of our paranoia and polarity... and to replace them with beautiful bridges of empathy and trust... so we can build robust and resilient communities capable of coming up with the truly inspired ideas needed to help create ~ as well as the massive volunteer power required to help manifest ~ a just world in which ALL can live and prosper in peace and abundance!

With such a mission, we believe that our *Born Again* project is a perfect fit for the Obama's **Higher Ground Productions** company which produces film and television projects with the goal of lifting up diverse voices in the entertainment industry. Michelle Obama stated, "I have always believed in *the power of storytelling* to inspire us, to make us think differently about the world around us, and *to help us open our minds and hearts* to others."

* "**born again**" refers to a personal spiritual transformation (or **rebirth**) that occurs when someone accepts Jesus Christ as their savior, signifying a radical change in their life...

Manifesto

A comprehensive breakdown of the many interwoven elements of our vision... delivered by “The Messenger” in a style reminiscent of the old-time evangelical Christian tent revivals in America in the early 20th century... CHARISMATIC and ECSTATIC!

I Need a Friend

Mickey Hart of the Grateful Dead has said, “When we drum together, we create sacred space.”

Extolling the sensational potential of the INTENTIONAL community drum circle to help inspire the creation of genuinely healthy and harmonious communities.

Finding the “Sacred Within”... seeing the precious, the invaluable, the miraculous within each and every one of us! Realizing that this is the secret to building beautiful relationships with others.

Holy Power

Noting that since most religious words have nearly parallel **NON**-religious definitions, “The Messenger” makes a compelling argument that her use of “god talk” (*religious lingo*) throughout the concert can act as a beautiful bridge of understanding between the divergent perspectives of the religious and the secular.

Proposing that, in the interest of UNITY and in the pursuit of JUSTICE, “THE GOLDEN RULE” (*the “gold standard” in all the world’s major religions*) can be the common ground upon which all people of INTEGRITY (*including the NON-religious*) can agree.

Embracing HUMILITY as the doorway to an OPEN MIND and OPEN HEART... as the pathway to UNDERSTANDING and EMPATHY... as the magic key to UNITY... as the secret to tapping into a “HOLY” kind of POWER that’s strong enough and wise enough to coalesce an international community capable of rescuing our magnificent Mother Earth and ALL her precious “children” from those uber-rich-and-uber-powerful “Dark Forces” who are so apathetically and shortsightedly invested in maintaining the massively destructive status quo for their own narrow benefit with absolutely no regard for the wellbeing of the one and only planet that sustains ALL life ~ including all of humanity (*not to mention their very own progeny*).

One Holy Family

Discovering through our bodies, our minds and our hearts that we humans are not separate from ~ but indeed are an integral and intimate part of ~ an intricate web of wildly diverse life.

Understanding that all humans, all animals, all plants, all life on earth ~ indeed, all of creation ~ is worthy of compassionate protection and loving support.

Appreciating that our life-giving Mother Earth and ALL her “children” richly deserve our deep gratitude and profound respect ~ even our reverence!

Born Again

Borrowing the beautiful term “born again” from the evangelical Christian tradition of saving one’s soul by turning over a new leaf, specifically by turning one’s life over to Jesus Christ...

INSTEAD, we are...

Pleading for a CULTURAL REVOLUTION leading to an ENVIRONMENTAL REHABILITATION and REBIRTH... before it’s too late!

Presenting a comparative vision of the urgent existential decision before us... either for what “HELL on Earth” or what “HEAVEN on Earth” will really look like... depending upon our individual and collective choices.

Walk in Beauty

The Hero’s challenging but transcendent journey along the road to creating Heaven on Earth... one moment, one day at a time... fearlessly flying in the face of the skeptics and critics.

Realizing that Walking in Beauty can only be accomplished by those Heroes who have committed to living with uncompromising Integrity.

Together

A call to “Golden Rule” activism!

You may have asked yourself, “why did I have to be born in a time of such immense and overwhelming suffering and pain?” To which we reply, “You were BORN here and now, because you are NEEDED here and now! Nonetheless...

ALONE, we may feel hopeless and helpless. But...

TOGETHER, the “Sacred We” are a “Holy Power” that can “move mountains”... better yet, to restore them (as well as the entire the world) to their magnificent natural glory!!! TOGETHER, we CAN save Mother Earth... and ALL her children!!!
